SUMMARY

I have four years of experience in front-end and back-end development, during which I have contributed to numerous projects across various industries. These experiences have allowed me to achieve significant milestones, both in terms of expanding my technical expertise and collaborating with team members of diverse skill levels. My journey has been filled with continuous learning and professional growth, and my passion for programming remains unwavering. I am committed to delivering high-quality solutions and aspire to contribute to projects that achieve global success.

SKILLS

Node js, SQL Server, My SQL , No SQL (firestore), NestJs, Angular, MongoDB, DevOps

WORK EXPERIENCE

SMA Smart Managed Applications for Information Technology Company   **Feb 2024 - Present**
Full Stack Web Developer & Team Leader   *Suadi Arabia*

- Led a cross-functional team spanning frontend, application development, infrastructure/servers, and QA, coordinating delivery and ensuring quality across the full release lifecycle.
- Architecting and implementing full-stack solutions, utilizing Angular for the frontend, Firebase for backend services, and Google Cloud Platform for infrastructure to ensure scalability and efficiency
- Overseeing system architecture and API integrations, ensuring seamless communication between services and optimizing system performance
- Providing mentorship and conducting code reviews to uphold best practices, improve code quality, and foster professional growth within the team.
- Collaborating with clients and stakeholders to define project requirements, align technical solutions with business objectives, and deliver high-quality, scalable applications.

Smart Mind - High End Technical Solutions   **Jul 2022 - Jan 2024**
Full Stack Web Developer   *(Sanaa, Yemen)*

- Designed and structured backend architectures and databases to establish a solid foundation for team collaboration and efficient project development.
- Led and contributed to the development of over eight projects, taking on both team leadership and active development roles to ensure high-quality deliverables.
- Developed and optimized APIs for seamless integration across various projects, enhancing system interoperability and performance.
- Utilized Postman for API testing, ensuring functionality, reliability, and security before deployment.
- Designed and implemented high-quality landing pages using Vue and Angular, focusing on responsive and user-friendly interfaces.

Web Developer & Project Manager & Team Lead   **Jan 2021 - Feb 2022**
Web Developer & Project Manager   *(Thamar- Yemen)*

- Worked on an innovative platform providing self-employment opportunities for professionals and craftsmen.
- Used Laravel, MySQL, Livewire, and Vue as the frontend framework.
- Managed the project and development team, ensuring smooth execution and high-quality results.
